## **Labor will secure land for new high school in Greenbank**

- Future high school site in the Greenbank (Greater Flagstone) area will be secured under a re-elected Miles Labor Government
- This follows strong support from the local Greenbank community
- Miles Government is committed to ensuring all children, no matter where they live, have access to quality educational facilities

The future delivery of a new secondary school for the Greenbank / Greater Flagstone area will be secured under a re-elected Miles Labor Government.

State Member for Logan, Linus Power MP and State Member for Jordan, Charis Mullen MP have made the pledge following strong representations to Premier Steven Miles and Education Minister, Di Farmer.

The opportunity to secure the land will ensure new and innovative education facilities can be delivered to meet the needs of expanding communities, when required.

Ongoing monitoring and analysis of population growth in this area will inform the timeline of the project with the opening year to be linked to student enrolment growth.

### **Quotes attributable to Linus Power MP, State Member for Logan**

“The opportunity to secure a site for a future high school for the Greenbank / Greater Flagstone area is very exciting.

“Once the land is secured, site specific planning for construction can begin.

“We opened a new primary school in Greenbank, Everleigh State School in 2022 with 200 students and we are now progressing Stage 2 of this growing school.

“Charis and I have worked with the community to get this commitment and will continue to work with the local community to get the best outcome.

“A site has been identified by Education Queensland opposite Everleigh State School on Anderson Drive creating a fantastic educational precinct in close proximity to the Regional Sport and Recreation Park which is already taking shape.”

### **Quotes attributable to Charis Mullen MP, State Member for Jordan**

“I am thrilled to make this commitment to our Greenbank & New Beith communities and planning for the new high school can progress in line with student population growth.

“With two primary schools now in the area – Greenbank State School and Everleigh State School, we know that student numbers will continue to grow.

“We have advocated strongly to secure a site and provide certainty to local families that we will deliver a new high school for Greenbank.

“I would like to thank all of the local families who have spoken with us about a future high school for this area and we are so pleased that a re-elected Labor Government will secure the land for the high school.
